Southwold	-1hr 15
Swin Spitway	+ 12
Walton-on-the-Naze	0
Wivenhoe	+ 27
Woodbridge	+ 32
Woodbridge Haven	- 11

Tidal data at Harwich: All predicted heights are given relative to Chart Datum of Harwich Harbour, a level of 2.02 metres below Ordnance Datum (Newlyn). The times of high and low waters are expressed in GMT. Tidal predictions for Harwich are produced by Harwich Haven Authority. All heights are expressed in metres. Times are UTC (GMT). Add one hour for British Summer Time (BST) 26 March 2023 - 29 October 2023.

Caution: The height of the tide may be affected by meteorological conditions. Winds between S.E. and S.W. or a high barometer, cause a decrease in height; winds between N.W. and N.E. or a low barometer, cause an increase. The deviation from the predicted tidal level may, under exceptional conditions, amount to more than one metre.

Key: ● New moon ○ Full moon. Springs occur 2 days after new & full moon.

Keeping safe in the Harwich Haven

More than 10,000 yachts of all shapes and sizes visit the Haven area each year and we provide free services for recreational users. Regular harbour patrols throughout the summer season also helps ensure safe passage for yachts.

To support our services we issue Notices to Mariners and produce a yearly yachting guide, which contains essential safety of navigation information and details about the local area.

Harwich Haven Authority also provides recreational users with access to live, up-to-the-minute hydrographical, meteorological and vessel movement data.

To find out more about wind speeds, wave heights and temperatures, please visit our website:

www.hha.co.uk/live-data

Subscribe to Harwich Haven Authority news and Notices to Mariners:

www.hha.co.uk/news/subscribe

Download tidal maps of the local area:

www.hha.co.uk/leisure/downloads
