

Notice to Mariners

Number: 26
Year: 2024
Issued: 03 May
In force: 2023: 48, 2024: 08,10,15,18,19,21,23,24,25,26

River Stour Weather Station Changes

Mariners are advised that Harwich Haven Authority is making the following changes to the local live weather stations (data published on www.hha.co.uk - <https://hha.co.uk/live-data/>).

Sensor No. 2, located on Ganges Pier at Shotley, will be retired on or around 26 June 2024.

This is replaced by new Sensor No. 7, located at Erwarton Beacon (South Cardinal), which is already live and running concurrently with the out-going sensor to allow for a comparison and change-over period.

Sensor Locations

Will Barker

Marine Director (Harbour Master)
